ABOUT ME

Fourth-year Information Technology student at NHL Stenden University of Applied Sciences, seeking a graduation internship. Experienced in academic and practical IT projects involving software development and technical solutions. Looking to apply and further develop technical skills through a practical IT project.

EDUCATION

NHL Stenden University of Applied Sciences
Bachelor's Degree in Information Technology
Netherlands | September 2023 – Present

Hanze University of Applied Sciences
Minor in Spanish Language and Culture
Groningen, Netherlands | February 2026 – August 2026

PROFESSIONAL EXPERIENCE

Software Developer Intern | MetaChef
Enschede, Netherlands | September 2025 – January 2026

- Developed internal administration interfaces and tools for managing and updating the company's digital products.
- Independently implemented the frontend of the company's new website, translating design concepts into a functional and consistent user interface.
- Contributed to the website's UI/UX design, extending the initial homepage design into a consistent experience across the website while collaborating with the Product Owner on design decisions and feedback.
